

Molecular Helminthology: An Integrated Approach

19-22 March 2017 | Cape Cod, MA, USA

ABSTRACT
SUBMISSION
DEADLINE

14
OCT, 2016

EARLY BIRD
REGISTRATION
DEADLINE

05
DEC, 2016

The goal of this conference is to bring researchers up-to-date with advances in the field of molecular helminthology, demonstrate the ability to ask cutting edge questions by using the newly available research tool box, and give young scientists a chance to present their work and see the future directions of the discipline.

Topics

- Helminth Genome Projects
- 'Omics' of Helminths (Transcriptome, proteome, secretome, metabolome)
- Tools to Manipulate Helminth Gene Expression
- Regulation and Signaling Pathways in Helminths
- Helminth Neurobiology
- Genetics and Biochemistry of Drug targets, Drug Action and Resistance

Conference Chairs

Philip T. LoVerde, *University of Texas, USA*

Sara Lustigman, *New York Blood Center, USA*
